HIGH SCHOOL BASKETBALL TEAMS WILL MAKE TOUR

LA GRANDE TEAM WILL BE PLAYED NEXT THURSDAY—OTHER GAMES SCHEDULED

Next Thursday the local basketball team of the high school will depart on its annual mountain tour which will last for three days. The local team will play with La Grande high school next Thursday night in that city, and then will match with Union on Friday night. On Saturday night the boys will return to La Grande and will meet the M. I. A. team, which will be the last game of the trip.

Coch Livingston says that the boys are in the best kind of shape for the trip, and it is his hope and the hope of the team to bring back three longed for scalps on their return to their home town on Sunday morning. The boys have been showing up well lately, as was manifested in the splendid showing which they made with Walla Walla a while back, and the chances for the team are undoubtedly better than they have been any time this season.

The team will go fully equipped and take along but one sub. Those who are to represent the team on the trip is hardly decided yet as a large number of the boys are doing excellent work.

Ashtand Mineral Bonds Sold

ASHLAND, Ore., Feb. 13.—Municipal bonds to the amount of \$175,000 to be issued in behalf of a mineral springs project, have been bid in by a local syndicate of 45 business men at par. This syndicate in turn disposed of the whole issue to Sweet-Causey-Foster Company and the Portland Trust & Savings Bank, on a satisfactory bid. The negotiation through syndicate channels was done to expedite the sale. The water commission now will go ahead with the enterprise.

Budapest to Kill Hogs.

VENICE, via London, Feb. 13.—It is said that as a result of the high prices of food in Budapest and in order to protect the public, the municipal authorities of the Hungarian capital have purchased several thousand hogs, which will be fattened and killed and the meat sold to the people at cost price.

The commission has liberated over 1000 birds in Umatilla county within the last year.

During Dr. Wood's short business career in Seaside he has made many friends who wish him prosperity in his new home."

Indian Meetings Successful.

The campmeeting evangelistic services being held by the Indian congregation at Tutuilla are proving very successful, according to Missionary J. M. Cornelson who is in the city today. Already several new members have united with the church. The meetings will extend through Wednesday night. On Wednesday afternoon a patriotic social will be given by the Christian Endeavor of the church in observance of the anniversary of the birth of Lincoln and Washington, and a temperance rally Wednesday night will close the campmeeting.

Minthorn Has Too Many Wives.

Gilbert Minthorn, called by some the most picturesque Indian on the reservation, is too much of a ladies' man, according to the federal authorities, and the federal grand jury, accordingly, indicted him on a charge of polygamy. He was arrested by Police Chief Kearney last week and gave \$500 bonds. While being taken to the police station he extracted a bottle of whiskey from his pocket and dropped it upon the walk, his intention being to rid himself of any evidence that might get him into trouble. The bottle broke and he was fined eight dollars by Judge Fitz Gerald for breaking glass upon the streets.

Round-up Steers Make Getaway.

Two years on the mountain ranges only served to make the Round-up Mexican steers more wild, evidence of which fact was furnished all day long yesterday to Livestock Director Sam R. Thompson, Bert Whitman, Ross Carney and Charles Manning. Eight head of the steers bought several years ago and which, since the 1913 Round-up, have been on the range near Pilot Rock were recently sold to local meat merchants for beef, having become so strong and so wild that they were hardly the class of stuff for wild west entertainments. Mr. Manning, upon whose range they were, and a helper started in with them yesterday morning and were met near the city limits by Messrs. Thompson, Whitman and Carney. The animals became excited on approaching the city and scattered in every direction. After putting in most of the day the men succeeded in corralling four of them but the others are still at large. One, a big buckskin, fled down the railroad track from the Pendleton Meat company's

plant and there was a wild scramble on the part of people taking a Sunday walk along the tracks.

Young Strain is Winner.

Among the 33 O. A. C. students successful in the examinations for appointments as candidates and guides in the Oregon building at the Panama-Pacific fair, Clayton Strain, son of Assekar and Mrs. C. P. Strain, was numbered. There were so many applicants for the positions that an examination on the resources of Oregon was given to determine the selections. Young Strain will thus be assured of a position at the fair for four weeks.

SALARIES REMAIN SAME.

(Continued from page one.)

"The bill, as I understand it," said the county superintendent this morning, "gives the boards the right to take into consideration the experience and the ability of the teachers. Last year there were 47 men teachers in Umatilla county at an average salary of \$73.79. However, the difference in the average salaries is accounted for by the fact that most of the responsible positions, such as principals, are held by the men and further by the fact that there are nearly four times as many women teachers as men. Right now I know of four women teachers in country districts getting \$85 a month and I know of only one man teacher in a similar position drawing that salary."

The bill will not affect the scale of salaries in the Pendleton schools either for the reason that the only men teachers employed are teaching in the departments in which women teachers are not competing.

Emden in Names Idea.

BERLIN, Feb. 13.—A meeting of the representatives of the various communities near Berlin adopted a novel suggestion. This was that the minister of the interior allow all the members of the crew of the German cruiser Emden to add the word Emden to their names and thus perpetuate through a hyphenated cognomen the memory of this cruiser's deeds.

The Emden, after a career on the high seas, in which she destroyed a great amount of British shipping, was finally overtaken and destroyed last December by an Australian cruiser in the Indian ocean.

Duke Left Out of Will.

CINCINNATI, Feb. 13.—The Duke of Manchester is not mentioned in the will of Eugene Zimmerman, railroad magnate and capitalist, which was filed for probate. The value of the estate is not given. It is provided that the entire estate must be held in trust. Following the death of the Duchess of Manchester, Mr. Zimmerman's daughter, the estate must be held in trust for a period of 21 years.

The income from the estate must be paid to the Duchess so long as she lives. A paragraph in the will reads in part:

"But under no circumstances are the trustees to pay to my daughter any sum to satisfy the claims of any creditors of my daughter."

Cupid Gets Court Call.

PHILADELPHIA, Feb. 13.—The wedding of Mrs. Hermoine Lynde and George B. Parker, a manufacturer at the home of the bride, 1521 Oxford street, was almost interrupted by the arrival of a copious rain. Common Pleas Court, charging them with having alienated the affections of the wife of Cornelius Dougherty, of 1508 North Seventeenth street.

By quick action however the couple were able to enter hall before a magistrate, and proceed with the celebration of their marriage. The ceremony was performed by Rev. Aug-

Every Day We Give Relief to Some Patient in Correcting Improper Vision

Don't put off having your eyes tested. It costs nothing to find out whether or not the glasses you are using are correctly fitted. Our lenses are ground in our store, to fit the requirements of each and every eye.

The Science of Medicine is Progressive

Judging from the trouble and expense people have in getting satisfactory glasses, there is room for improvement in glass fitting. A glass that was apparently alright at first but later requires changing, is absolute proof that it never was correct. We use a method of glass fitting that will straighten cross eyes without a surgical operation; the same principles will give you a glass that will never require changing, except for reading from the ages of 45 to 65.

Only one of the various systems can make the above statement good. We are the only refractionist in Oregon using this system.
